

PERMAVENT

INNOVATIVE CONSTRUCTION PRODUCTS

Permavent Ltd are the leading UK supplier of roofing underlays and roofing accessories for new build and social housing re-roofing projects.

Permavent provide an extensive range of air open, vapour permeable and impermeable roofing underlays suitable for various domestic and commercial applications. Our range of membranes assist condensation control, and maintaining a healthy roof. Permavent roofing underlays designed for all types of pitched roof applications. All of our membranes are developed and manufactured using next generation, technically advanced production methods. All membranes are fully BBA, UKCA, CE certified and BRE tested.

Permavent DRY+ in combination with our award winning Easy Roof System allows slates to be installed as low as 10° and plain tiles as low as 17.5°.
