

VELUX craftsman's roof exit GVT

Glazing 00H

The window can be installed in roof pitches between 20° and 65°.

VELUX roof window GVT is designed for use in uninhabited rooms where easy access to the roof and regular ventilation is needed. Side-hung, it opens to the left or right depending on preferred use. Made from maintenance-free aluminium and polyurethane. Comes complete with integrated flashing and moulded tread. Available with black or red profiles.

- Three ventilation positions enable you to secure a constant low-level air flow in uninhabited areas.
- Opens outwards to the left or the right for easy access to the roof.
- Patented opening restrictor securely holds the window open at 90-degrees.
- Access the roof safely and securely by using the moulded tread with grooves.
- Enjoy hassle- and maintenance-free use of the roof window thanks to the extruded aluminium sash.
- Create a perfect installation with the integrated universal flashing that provides a simple workflow and a watertight connection.

All measurements are in mm. () = Effective daylight area, m²

Glazing features

Glazing 00H		
	Heat insulation The low energy glazing unit reduces heat loss through the window and enhanced indoor comfort.	U_g = 3.0
	Solar gain In colder climates and in rooms with large window areas, solar gain provides a better indoor climate during winter periods.	0.78
	Solar protection In warm climates and in rooms with large window areas, a sun protective glazing unit provides a better indoor climate during summer periods.	★★★★
	Security Thicker laminated inner glass increases resistance to manual attack (burglary).	N/A
