

WIENERBERGER LEAD REPLACEMENT

Wienerberger Lead Replacement is a revolutionary and environmentally friendly alternative to lead, used as a weathering flashing material for building. It incorporates all the useful features of traditional lead but eliminates those that are undesirable.

It is aluminium based and available in two unique surface finishes (cross-corrugated and embossed) depending on the application.

BENEFITS

- Lightweight, easy and safe to handle.
- Versatile - used for flashing or patch repair.
- Quicker to install than lead and no patination oil required.
- Minimum 30 year design life.
- Non-toxic. No potential hazards for installers and animals with no contamination of run-off water.
- Environmentally friendly - suitable for rainwater harvesting and water trough systems.
- 6% the weight of code 4 lead, providing health and safety benefits for installers.
- Easy to form over a range of roof profiles.
- Highly durable surface finish, which does not oxidise, stain or rust.
- Integral self adhesive backing eliminates risk of water penetration and ensures good substrate bond.
- Independently certified by BM TRADA.

PRODUCT DESCRIPTION

Material

Wienerberger Lead Replacement is a combination of a highly durable aluminium sheet with a solvent lacquer upper surface and an adhesive butyl backing with high levels of tack to prevent wind uplift.

Sizes

Roll length: 5m.

Roll widths: 300mm and 450mm.

Thickness: 4.1mm (cross-corrugated), 0.65mm (embossed).

Weight

A 300mm x 5m roll weighs only 2.5kg.

Working temperature (when installed)

-40°C to 90°C.

Finishes

Colour: Grey and Terracotta*.

*Colour made to order

Cross-corrugated finish

Designed for use where the flashing has to be moulded over and around complex shapes such as profiled roof tiles and corner junctions.

The unique cross-corrugation pattern allows the Product to curve and bend in more than one direction at once.

TOP TIP

Ensure that the surface to receive Wienerberger Lead Replacement is dry and free of debris and excessive dust.

Embossed finish

Designed for application requiring less complex shaping such as pitched roof valleys, secret gutters, soakers for slates and double-lap tiles, and box gutters.

Specification clause

Flashings to be lead-free
Wienerberger Lead Replacement, a solvent lacquer-coated aluminium sheet with adhesive butyl backing.

Colour: Grey / Terracotta.

Finish: embossed / cross-corrugated.
